

# Metagross

2U42Bay

High-Density JBOD in 2U Enclosure

## Highlights

- **42 SATA drives (3.5") in a 2U form factor**
- **Efficient management system that offers monitoring capabilities and can be accessed remotely**
- **Easy serviceability with front serviceable hard drives and hot-pluggable fans**
- **Wide range application support**

Inventec Metagross is a standard 2U high rackmount system, supporting 42 3.5" hot-swappable SATA drives with easy serviceability. It offers a higher maximum storage capacity than other similar products with full redundancy and flexible I/O expansibility.

### The Highest Dense

Metagross is the highest density storage JBOD with 42 SATA drives in a 2U enclosure. This special characteristic of high density in a small frame will dramatically reduce the cost of a storage center.

### Highly Flexibility

Due to the high density, the Metagross provides diverse ways of usage tailored to the customer's needs. The affordable price, the combination of performance, and configuration flexibility are suitable for any applications that require an increased demand for high performance storage.

## Managing and Monitoring

Considering the current pandemic situation, working remotely has become the new norm. Inventec Metagross provides an easy access to monitor the system's health status and control components remotely through the baseband management controller.

# Metagross | Storage JBOD

<b>Positioning</b>	Cold Storage / Warm Storage
<b>Form Factor</b>	D(925 mm), W(447mm), H(86.8mm)
<b>Management NIC</b>	1G Based-T from AST2520 BMC
<b>Front I/O &amp; Rear I/O</b>	Mini SAS HD x4 *2 SAS Cable LED *2 HDD Fail LED*2 RJ45 with LED (Management NIC) RJ45 W/O LED (UART) Mini USB(I2C) UID Button&LED (with Reset function) Power Button&LED Health LED
<b>Fan</b>	4 x 8056 hot-swappable dual-rotor fans with N+1 redundancy
<b>Power Supply</b>	2 x 800W Power Supplies with 1+1 redundancy
<b>Temperature</b>	5°C - 35°C

## About Inventec Data Center Solutions (Inventec EBG)

Inventec Data Center Solutions (Inventec EBG) was established in 1998 and has been focusing on the design and manufacturing of server systems in Inventec Corporation. Over decades, Inventec EBG has been the key server system supplier of the global branding clients.
